Thanks to these leaders Utah is 100% smoke-free.

Secondhand smoke contains more than 4000 chemicals, including formaldehyde and arsenic. And it causes lung cancer and heart disease. But thanks to the effort of these leaders, Utah is now 100% smoke-free. Governor Huntsman signed a bill (SB 19) into law that protects all workers and families from the dangers of secondhand smoke — permanently closing a loophole that allowed smoking in clubs, taverns, fraternal clubs and country clubs.
