

Not cool.

Our legislature is raiding tobacco prevention.
Only Governor Gregoire can stop it.

Tobacco prevention is worth every penny. So why does our legislature want to cut funding by \$13.9 million? It doesn't make sense. Washington's program has been recognized as one of the country's most effective — cutting smoking by 57% among

sixth graders alone. Plus, it's already saved over \$1 billion in tobacco-related healthcare costs. That's why Governor Gregoire should veto this raid and Washington's leaders should provide guaranteed long-term funding for tobacco prevention.
