

PHILIP MORRIS HAS NOT MADE FUNDAMENTAL CHANGES IN HOW IT MARKETS, PROMOTES AND ADVERTISES ITS PRODUCTS AND CONTINUES TO USE THE SAME TACTICS THAT HAVE BEEN EFFECTIVE WITH CHILDREN FOR DECADES

Philip Morris claims that the November 1998 Multistate Settlement “fundamentally changed how tobacco is marketed, promoted and advertised”. This statement is false. The November 1998 settlement prompted only minimal marketing changes, leaving the tobacco companies with major marketing tools that they have used to attract children. A comparison of the marketing provisions of the November 1998 Settlement with those in their June 1997 agreement with the state attorneys general demonstrates just how little has changed in comparison to what the companies promised only three years ago. If Philip Morris and the other cigarette companies were really serious about reducing youth smoking, they would stop just talking about it and start doing what they agreed to do in June 1997.
