Table shows state cigarette tax rates and the state average currently in effect. The states in **red** have not increased their tax for at least 10 years (since 2009 or earlier). Sales tax amount per pack is based on state sales tax percentage and average price of a pack of cigarettes in each state. In the vast majority of states with sales taxes, the sales tax percentage is applied to the total retail price of a pack of cigarettes, including all applicable federal and state cigarette excise taxes. Oklahoma has a state sales tax, but does not apply it to cigarettes; Minnesota and Washington, DC apply a per-pack sales tax at the wholesale level; and Alabama, Georgia, and Missouri do not apply their state sales tax to that portion of retail cigarette prices that represents the state's cigarette excise tax.

The federal cigarette tax is \$1.01 per pack (there is no federal sales tax). In the last several years, the major cigarette companies have increased their product prices by almost \$1.00 per pack.
