

## ACTUAL ANNUAL TOBACCO SETTLEMENT PAYMENTS RECEIVED BY THE STATES, 1998-2023 (Millions of Dollars)

The following table shows the actual payments received by the states pursuant to the individual settlements negotiated in 1997 and 1998 by Mississippi, Florida, Texas, and Minnesota to settle their lawsuits against the major cigarette companies and the November 1998 Master Settlement Agreement (MSA) between the cigarette companies and the rest of the states, DC, Puerto Rico, and the U.S. territories. Given the huge sums that states take in from the Master Settlement Agreement, it is clear that states are not spending nearly enough of their tobacco settlement revenues to prevent and reduce tobacco use.

Campaign for Tobacco-Free Kids, November 27, 2023

Payments are for calendar years but because of payment schedules the totals for most states are the same as their fiscal year totals. The terms of the MSA called for the large payment increases in 2008, and those higher levels continue thereafter. Beginning in 2003, payments reflect the fact that most of the MSA companies withheld or paid into disputed-payment escrow accounts amounts they claim are not due because of a retroactive Non-Participating Manufacturer (NPM) adjustment. An arbitration panel was entrusted with determining whether a state had diligently enforced its escrow statute and as a result was exempt from any NPM adjustment. In 2009, there was a partial payment to the states of some of the previously withheld funds and in 2013, the arbitration panel issued its ruling pertaining to the 2003 escrow statutes, finding that 9 states had diligently enforced their escrow statutes and 6 states had failed to diligently enforce their escrow statutes.<sup>§</sup> 11 states were not challenged at all. 20 states, DC and Puerto Rico settled all claims for NPM adjustments for all years from 2003-2012. The results of the arbitration rulings and the implementation of the new settlement are reflected in the 2013 and 2014 payments. In addition, some states have received payments as a result of individual settlements over disputed payments since then. Payments of “disputed” funds are placed in escrow until the dispute is resolved. As set forth in the settlement agreements, the base-payment amounts allocated to the states each year are subject to various adjustments prior to payment. The two major adjustments are the downward volume adjustment (based on declines in the nationwide sales of the top-four, now three, U.S. cigarette companies) and the upward inflation adjustment (equal to the higher of 3% or the actual rate of inflation each year). The volume adjustment’s payment reductions have been increasingly offset by the upward inflation adjustment. MSA payments are currently made annually, due by April 15. Additional Information: The Master Settlement Agreement and other information from the National Association of Attorneys General (NAAG), [http://www.naag.org/naag/about\\_naag/naag-center-for-tobacco-and-public-health.php](http://www.naag.org/naag/about_naag/naag-center-for-tobacco-and-public-health.php); Campaign for Tobacco-Free Kids website at: <https://www.tobaccofreekids.org/fact-sheets/tobacco-control-policies/state-tobacco-settlements-1>.

<sup>§</sup> Several of the losing states have challenged the arbitration decision in court.
