Type of Tobacco Product(s)
Legislation applies to smoked tobacco products (except waterpipe, which is banned). Smokeless tobacco products are banned.

Health Warning Labels

Type, Size and Location
Pictorial health warning labels (HWLs) are required to cover 65% of the front and 65% of the back of the package. Overall, 65% of the principal display areas of the package are allocated to HWLs.

Content
The HWLs address the effects of smoking, including throat cancer, mouth cancer, lung cancer, and heart attack. Two HWLs also address the effects of chewing tobacco, although smokeless tobacco products are banned.

Language
Health warning texts must be in English, the principal language of the country.

Cessation Aid
No quitline phone number or government-sponsored website is required to be displayed on the package.

Number, Rotation Schedule and History
Uganda has issued one round of pictorial HWLs:

<table>
<thead>
<tr>
<th>Smoked Tobacco Products</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Round (implementation year)</strong></td>
</tr>
<tr>
<td>R1 (2020)</td>
</tr>
</tbody>
</table>

Health warnings in each round are required to rotate for a period over 24 months.

Constituents and Emissions Information
Tobacco packs are required to display qualitative (descriptive) constituents and emissions information on carcinogens printed on 100% of the top side of the package.

Prohibition on Misleading Packaging and Labeling

Additional notes
The message “FOR SALE ONLY IN UGANDA” is required on the bottom side of the package.
UGANDA

WARNINGS: 2020

SMOKED TOBACCO PRODUCTS

- Non-smoker’s Lung vs Smoker’s Lung
- Smoking and chewing tobacco causes throat cancer
- Smoking tobacco causes heart attacks
- Smoking and chewing tobacco causes mouth cancer
