

Implementation date and additional rounds

2014

Tobacco products package coverage and location

Graphic health warnings are required to cover the top 50% of the front and 50% of the back of the package. Overall, 50% of the package space is allocated to health warnings.

Misleading information

Misleading descriptors such as 'light,' 'ultra light,' 'mild,' etc., figures for emission yields (including tar, nicotine, and carbon monoxide) and expiration dates are prohibited from appearing on packages.

Constituents and emissions information

No message is required to display qualitative (descriptive) constituents and emissions information.

Special notes

Legislation applies to all tobacco products (combusted and smokeless) without specifying the content of the warnings for each type of tobacco.

Rotation schedule, history, language, and help for smoking cessation

Suriname has produced one round of graphic health warning labels:

Round (Year)	Number	Size (%) [average— front/back]
R1 (2014)	6 pairs	50— 50/50

Warnings within the round are required to be rotated for a period of 18 months. Warning texts are in English; however, the principal language of the country is Dutch. No quitline phone number or government-sponsored website is required to be displayed on the package.
